

(888) 992-4404

M.J. White & Son offers surface decontamination and environmental cleaning services that are safe and effective.

For over 40 years our locally owned company has provided biohazard, disinfection, and decontamination services to health care facilities, schools, privately owned businesses and homeowners.

We are professionals and we are trained to use the latest technology and solutions that **kill viruses including COVID-19, bacteria, and fungi.** One method is the use of small, portable sprayers with the latest technology and solutions that can kill 99.99% of pathogens and leave no harmful residue. Our disinfection services also meet the Centers For Disease Control and Prevention (CDC) guidelines.

Cleaning and disinfection can reduce the risk of infection or cross contamination.
